

UC DAVIS
**CAMPUS DIALOGUE
AND DELIBERATION**

EXPLORING BIAS: A CAMPUS DIALOGUE

We all have personal biases – inclinations for or against individuals or groups that block impartial judgment. Based in normal cognitive shortcuts, biases can affect our actions, our thinking, and our decision-making, often with significant consequences.

Join members of our campus community in dialogue as we explore our personal biases, examine where they arise, and share experiences of disrupting - or trying to disrupt - biases.
